STANFORD, LINCOLN COUNTY, KENTUCKY. FRIDAY, JANUARY 20, 1911.

\$1 A YEAR STRICTLY IN ADVANCE

COURT DECISION WILL HELP STANFORD

IN FIGHT TO SECURE REASONABLE PHONE RATES—MEET AGAIN TONIGHT

The City of Stanford practically won a victory against the East Tennessee Telephone Company when the Court of Appeals at Frankfort this week held that the phone company had no franchise to do business in the city of Frankfort and that after 90 days' notice, that city could proceed against the company to oust it, unless it secured a legal franchise. Those familiar with the case of the phone company at Frankfort and the case here say they are practically identical, so that all that Stanford will have to do, will be to follow out the procedure outlined by the court in the Frankfort case. For the prosecution of the phone company.

At a meeting of the City Council on Tuesday night an ordinance providing for the sale of a franchise in Stanford was given its first reading. It will have its final reading and passage at the first regular meeting in February and the Council will then advertise for bids for the sale of a franchise, and in this franchise will say just what the telephone rates in Stanford shall be.

The mass meeting of citizens called for Wednesday night was postponed until tonight, Friday night, in order that President George S. Shanhlin, of the Fayette Home Telephone Company and A. H. Martin, of the Lancaster line could be present and furnish the local citizens with information regarding the independent system and its rates.

A committee will be appointed from among the business men who have had their phones removed, to call on all residents of the city and county with reference to joining in the united movement to secure reasonable rates by having their phones removed. Kentucky's motto: "United we stand; divided we fall," applies to the local situation, the business men believe and they are going to ask every citizen of the city and county to stand with them in their fight against an unjust and extortionate telephone rate.

BUD REYNOLDS LIKES PRIMARY LAW

FORMER LINCOLNITE TELLS HOW WELL IT WORKS IN THE SUNFLOWER STATE.

Neola, Kan. Jan. 15.

Dear readers of I. J.

To keep many of you from forgetting entirely that there is such a person living, I will write a few lines, though I have no important news. Some of you may be surprised to know that while you are having so much rain, snow and mud, that only a few hundred miles away in the land of sunflowers and clunch bugs it is very dry, yet such is the case for we have not had any rain for more than three months and no snow at all so far this winter and have only had two cloudy days during the last month.

But the most surprising thing to me is wheat that came up continues to grow and look well, for I thought it would surely perish. There is lots of late sown wheat—not up but the seed seems to be as dry as when sown.

It has been an ideal fall for corn husking and shelling and most of the farmers are through except those who had corn cut and shocked. Fodder is in dry to hand.

Some may wonder if stock water is not very scarce after so long a drouth. No, we have no springs nor running streams like old Kentucky but all stock is watered from wells, windmills do the pumping, and the stock always get good pure, clear water.

I see from the papers that lots of people are yet selling out in Kentucky and other eastern states and going to Oklahoma. Now Oklahoma is a fine state, but to any of my friends who think of going there, I want to say, unless you have plenty of money, investigate before you go.

There has been a stream of people going to Oklahoma ever since long before it became a state, so that all good land is very high, and all kinds of business is crowded. There are as fully as good chances in central and Western Kansas if not better ones.

I am glad to see the L. J. favoring a primary election law. Kansas has such a law and it works well. Here all candidates are nominated on the first Tuesday in August, when the voter goes to vote, he must call for the ballot of the party with which he wants to vote and can vote to nominate only one party's candidate. The candidate pays no part of the expense of the primary more, than any other taxpayer.

Am sorry to see that the prices of tobacco are so low, when so many in old Lincoln have a crop of the weed on hand.

But just think once, what a great wheat or corn crop, Lincoln county would have if all those would try as hard to raise those as they did this tobacco, and would be an actual benefit to so many, instead of satisfying a useless habit.

Wishing the L. J. and all its readers a merry Christmas and a happy New Year. I am, Respy.

M. G. REYNOLDS.

SAD CASE OF THE POPEWELLS IN CASEY

WHOLE FAMILY ILL IN BED AND SON DIES—J. T. SHORT IS NO MORE

Middleburg, Jan. 19.

Rev. C. T. Clauch, who was some time ago called to the pastorate of the Baptist church, preached Sunday morning and evening to large congregations. The members are well pleased with the start he made. He will move to the parsonage about March 1.

Mr. and Mrs. J. S. Popewell, who have just moved from Russell county to the O. L. Wilson place on the Liberty pike, seem to be passing under the rod at present. Indeed, their case is the saddest that has passed under our notice for many a day. A son 18 years of age and said to be a fine young man died Saturday after noon of measles superinduced by double pneumonia, and Mr. Popewell and eight children are down with the same disease. Not a single member of the family was able to attend the burial of the dead boy, which took place here Sunday afternoon. No sympathy is being felt for them in this, their great trouble, and kind neighbors are lending all the assistance possible.

D. K. Short departed his life Sunday afternoon Jan. 15th. He had been in failing health for more than a year, and had been under treatment but grew worse all the while, and his death was not a surprise. He was 52 years of age, a member of the Baptist church, and had been twice married. His last wife who survives him, being a Miss Gasteau who was raised near Hustonville. Mr. Short was quite a clever man and his friends regret to lose him from the walks of life. Rev. J. P. Montgomery conducted the funeral services at the Baptist church Monday when the Masons took charge of the remains, and he was laid to rest beside his wife who preceded him to the grave some years ago.

Some one set fire to broom-sedge on Judge Lincoln Wells' farm Tuesday afternoon, which soon spread to other farms doing considerable damage to fencing etc. A large hedge fence between the farms of Judge Wells and Mrs. Martha Snapp's was completely ruined and some one hundred or more panels of rail fence was burned.

Rev. Jefferson Southland, of Temple, Okla. who left here some 18 years ago has been with friends of the Lanham neighborhood for a week or more. He has been holding services at the school house on the Liberty pike and those who have heard him say he is quite an interesting preacher, and that his sermons have done quite a good deal of good. He was a small boy when he left Kentucky.

Quite a noted case will come up in the magistrates court at Yosemite today. Some six years or more ago, in the story goes, Fount Wall gave his father in law, C. C. Hatter an old cow, which shortly after dropped a better calf. Hatter raised the calf to be a cow and has sold two calves from her. A few weeks since Wall went to Hatter and demanded possession of the cow and Hatter refused to give her up. Wall watched his opportunity and finding the cow outside drove her to his barn and locked her in. Hatter went to a magistrate and swore out an order of delivery and placed it in the hands of Constable Marion Black and he executed the papers by taking the cow in possession. The case is set for today, Tuesday, and promises to be an interesting one, as both parties have employed counsel and quite an array of witnesses have been summoned.

We notice that the People's Tobacco Warehouse Company at Danville showed its appreciation of the presence of the agents of the several tobacco companies who have been in attendance at the tobacco sales there by dining them at a fashionable hotel in a manner doubtless highly and satisfactorily to all concerned. This was perhaps all right and of course pleasing to those men in broadcloth and overcoats, but somehow while reading of the affair we could not help thinking of the growers of tobacco, who made the sale of the weed possible and who were compelled to stand by and see the product of their labor sold for little or nothing. Why not spread a table for them? It would not cost much, just a cheap affair would do. Leave off the wine and other dainties. These might denigrate their stomachs or cause a hanker for things they cannot afford. Just give them hay and hominy, they would be satisfied and appreciate it, because many of them are hungry made doubly so by reason of the greed of the tobacco trust.

Gentlemen please think this matter over.

A RELIABLE COUGH MEDICINE. Is a valuable family friend. Foley's Honey and Tar fulfills this condition exactly. Mrs. Charles Kilne, N. 8th St. Boston, Pa. states: Several members of my family have been cured of bad coughs and colds by the use of Foley's Honey and Tar and I am never without a bottle in the house. It soothes and relieves the irritation in the throat and loosens up the cold. I have always found it a reliable cough cure." Shugart and Tanter.

BOYS WORK UNDER BALL AND CHAIN

IN CORRIGIBLE YOUNGSTERS TAKEN IN CHARGE BY POLICE FOR DISORDERLY LOAFING.

The sight of two young men, one probably not over 14 years of age and the other several years his senior scraping the snow off the sidewalks of Stanford with ball and chain attached to their legs attracted quite a crowd on Main street Wednesday afternoon. The culprits expiating their crimes were "Buckskin Bill" Daffon, a youngster of Rowland who has repeatedly offended the laws and ordinances of Stanford by loafing about the depot at unbecomingly hours.

With him was Cleve Hammonds, a Wayne county product, who said that he had worked the past year for W. W. Warren as a tobacco hand.

"Buckskin Bill" was given a fine of \$10 and ten days with the trimmings by Police Judge Menefee while Hammonds because of his greater years was taxed \$15 and the trimmings with accompanying number of days, for drunkenness and disorderly conduct. Hammonds later paid his fine out and returned home.

Galvani Friday Night

GREAT HYPNOTIST TO BE SEEN IN STANFORD AGAIN.

Prof. Galvani the eminent hypnotist, and mind reader who will fill an engagement at the opera house Friday night has succeeded in creating the usual interest, and will no doubt play to capacity house. There is something about Galvani's work that brands him the superior of all demonstrators of his art, and those who attend his performances to scoff, remain to marvel at the truly wonderful and incomprehensible feat performed. As this is his third appearance here prices have been reduced to 10 and 20 cents.

The fellows that raise tobacco have planned to cut it out. And swapping news by telephone. High rates have cut it out. The merry clink of jolly glass. The law has cut it out. The full bell shifts of other days. The girls have cut it out. The high old times we used to have. Old age has cut it out. The good strong seat of Sunday pants. L. O. U. has cut it out. But if you tell a good state joke. Some fool cries—cut it out. Or we get a sore appendix. The doctors cut it out. These are cutting times I tell you. And swains still cut the swamps. But since Swopes has wiped a diamond. He swains it, boys, for keeps.
